

## PACE TRANSPORTATION SOFTWARE SOLUTIONS

Reduce the time and effort required to manage transportation operations at your PACE program

## NovusMED | Simpli

# PACE PARTNERSHIPS

Momentm understands a major goal for the Program for All-Inclusive Care for the Elderly (PACE) is to help seniors meet their healthcare needs in their community, instead of going to a long-term care facility. Momentm's non-emergency medical transportation (NEMT) software, NovusMED and Simpli, are designed to help achieve this goal by ensuring no visits are missed, transportation is on time, and coordination of services is improved.

Our software is integral to the entire PACE process, from trip booking to scheduling and managing home healthcare visits. For centers operating their own transportation, Simpli offers a lightweight, all-in-one solution, while NovusMED provides a comprehensive system for more complex needs. Coordinating schedules across home care, transportation, and off-site appointments allows you to streamline operations and improve participant care.

### DESIGNED WITH PACE PARTNERS IN MIND

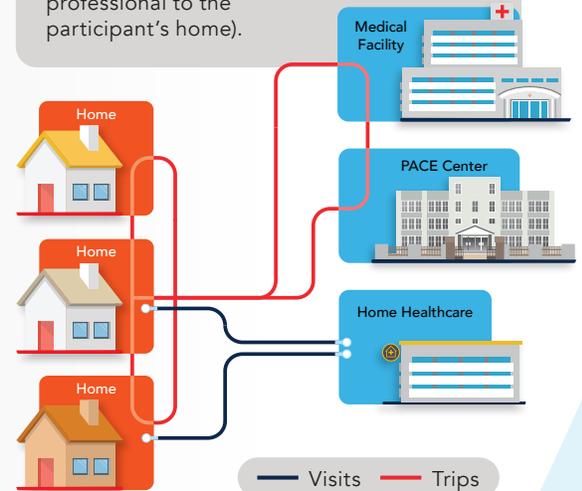

#### **Simpli**: Perfect for In-House & Growing Operations

- **All-in-One Platform** – Unifies dispatch, billing, compliance, and driver management into a single, easy-to-use platform
- **Mobile-Friendly** – Fully accessible on mobile devices for small, multi-role teams
- **Quick Setup** – Get running in hours with simple configuration and in-app guidance
- **Transparent Pricing** – Vehicle-based pricing that scales with your operation

#### **NovusMED**: Comprehensive Solution for Complex Operations

- **Advanced Automation** – Sophisticated vehicle routing and automated scheduling optimize resources while balancing participant experience
- **Real-Time Intelligence** – Live tracking of participant trips and vehicles with location insights
- **Fully Configurable** – Adaptable workflows that apply your center's specific operational rules
- **Enterprise Scalable** – From single facility to multi-center operations with tailored field layouts

Momentm offers two types of scheduling: trips (to and from the PACE day center and to medically necessary appointments) and home healthcare visits (visits from a service professional to the participant's home).

## SCHEDULING & COORDINATION SOLUTIONS

### Better Scheduling for Your Organization

FOR IN-HOUSE TRANSPORTATION:

## Simpli

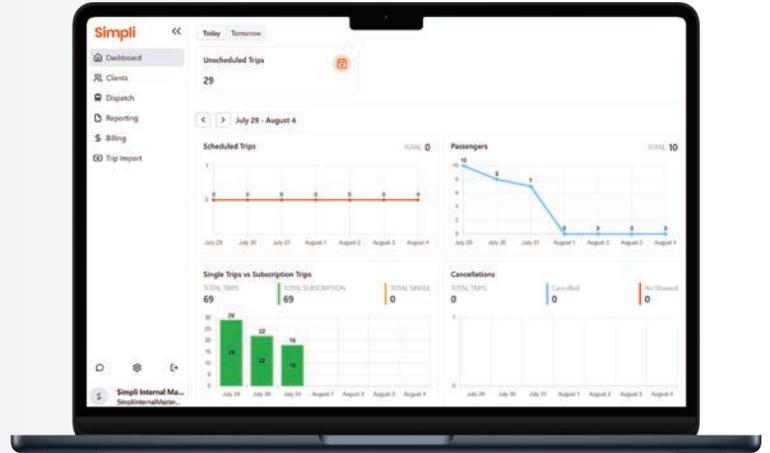

Small PACE Centers | New Operations  
Resource-Constrained Teams

#### Scheduling Features:

- Drag-and-drop scheduling interface
- Smart street-level routing
- Real-time vehicle tracking
- Mobile-first design for on-the-go management

#### Key Benefits:

- Get up and running in hours, not weeks
- One platform handles dispatch, billing, and compliance
- Perfect for teams where staff wear multiple hats

Simpli scheduling dashboard accessible across computer and mobile devices.

FOR COMPLEX OPERATIONS:

## NovusMED

Multi-Center Operations | High Trip Volume  
Comprehensive Care Coordination

#### Scheduling Features:

- Automated vehicle routing and optimization
- Real-time tracking of participants and vehicles
- Integration with electronic health records
- Advanced workflow customization

#### Key Benefits:

- Coordinates transportation with home healthcare visits
- Handles complex multi-facility operations
- Adapts to your center's specific operational rules

Scheduled route performed by a PACE driver. Note shared passenger pickup and drop-offs.

## MANAGEMENT & ANALYTICS

### Complete Operational Control

#### ◉ Simpli

##### Driver & Fleet Management:

- iOS/Android driver app (NovusMED Driver)
- Automated trip completion tracking
- Essential compliance tools
- Two-way communication between dispatch and drivers

##### Billing & Invoicing:

- Easily manage multiple funding streams and never lose track of reimbursements
- Quickly import trips using a CSV file

## BOTH SYSTEMS PROVIDE:

- ✔ **HIPAA Compliance** - Security controls for sensitive information
- ✔ **Real-time Data Collection** - Mobile apps for drivers and staff
- ✔ **Participant Preferences** - Consistent pickup times and driver assignments
- ✔ **Scalable Solutions** - Grow with your PACE center's needs

#### ◉ NovusMED

##### In-Field Data Collection:

- Mobile devices provide real-time communication and data collection for transportation and home healthcare providers
- Staff can download schedules from their mobile devices
- Electronically collect times, verify visits, and log GPS locations
- Add pre-defined comments to trip or visit records

##### Financial Tracking:

- Financial tracking capability for centers that perform transportation internally or contract with third parties
- Pre-set service rates enable automatic reimbursement calculations
- Calculate reimbursements based on time, mileage, or other defined criteria

##### Geographic Service Areas:

- Easily define service areas using built-in mapping tools
- Create multiple individual service areas
- Assign specific areas to drivers and home health providers
- Ensure accurate routing and work assignments

##### Multi-Facility Operations:

- Configure the system for a single facility or multiple facilities within the same organization
- Financial tracking tools allow cost allocation for each facility
- Activity reporting capabilities for each facility

##### Reporting and Analysis Tools:

- Data stored in a Microsoft SQL database
- Wide range of reporting and analysis options available

Momentm Technologies is a dedicated Health & Human Services Transportation software company, emerging from 30+ years of prior experience from TripSpark and Trapeze. Momentm is a reflection of our commitment to addressing key social determinants of health (SDOH), namely non-emergency medical transportation (NEMT), for many market segments including Managed Care Organizations, brokers, transportation providers, PACE, IDD, and health groups.

Our market leading expertise is well-known, and now we are truly building Momentm together with you.
